## Total cataclysm 2012

If the end of this world showed itself the same, or is shocking from it, into which media are introducing him, it would be it is an incredible divine punishment; the hell of trouble, collecting God's anger collected by all centuries of the history of humankind; it like conclusive judgement premature, but for everyone; it like epicentre and accumulation of the accumulation of all heavy penalties for the entire mankind, for the entire Earth and everything, on 'that'.

But the end of the world is a, bad, very bad energy energy. Why so it those would the evil be supposed to tower over the omnipotence, excellent love and the irreproachable good of the God the Father? For every cross victim of the Son of God? For in order to blow us out in a flash? Really even a worst destiny, was stronger than the goodwill of God of the Heavenly Father and odkupieńczej of Blood of his Dearest Son?

Yeah unless indeed God isn't love, but anger and the vindictiveness, or the end of the world isn't a bad energy, but a revival, in the meaning with turning, renaming of everything what until now was bad and setting in of much better new times? Perhaps and so he is a fruit and kind of complementing the victim of the round steak?

And perhaps this end of the world is entire with one great mystification and huge, on a world scale with metaphor: it is not the end of the world will take place, but one great transformation into us, with each of us?

End of the world will not see it-not completely, unless it comes from day to day, moment by moment ... I read a very well known throughout the world a seer, a long time searching and taking up this issue provided me.

The Jesus is saying: " you I don't think so you know God. He, on the example of the end of the world: is able to dismiss him even at the last moment, even then, when exactly up to this Moment, it was Bright, that

there is no and he cannot be of no Hope, and everything, as well as everyone said that it wouldn't be possible in no way to stop it, and all Hope already a long time ago departed, and the Death on the Earth is More certain than, the fact that Water always flows into the Bottom. never mind can not mean.

Because from Plans and Ideas of God, there is no Greater Power, anywhere at all in order not to search. He, as the Good Host: in a flash will be willing to annihilate his Flock, and in second entirely will change his mind, seeing that he is recovering.

Paradoxes don't exist. Paradoxes don't exist, he is but the incomprehensibility prefers the God the Father towards us.

Wiara (2010)

To jest kolekcja moich pozytywnych myśli, aforyzmów, otoczenia i siły wiary. To fakt, że zawsze wierzymy w siebie i w swą wiarę, choć w różnym stopniu. Chciałem włączyć w nich coś ponadczasowego, w tym piękno świata i sens życia, ponieważ wiara stanowi jedno z podstawowego widzenia świata, piękna i życia tego piękna.
